

5 A SIDE FIELDS FROM WBSSPORT

We supply and install state-of-the-art **indoor and outdoor** soccer courts. The **materials we use are approved by many Football Federations all over the world**. With our safe, heavy-duty equipment, you'll get unbeatable value for your money.

Choose between **permanent fields, semi-portable fields, free-standing fields and portable mini-pitch**.

All our metal frames are **hot-galvanized and thermo-lacquered** to ensure maximum duration.

Technical Info

Nets

- Secured into an aluminum profile channel attached to boarding.
- No cutting edge & safety finger pinch system.
- System for fixing the nets (width) facilitating their replacement.
- On the posts nets are secured into a galvanized steel profile channel attached to corner posts for a perfect finish and safety.

Goals

- Steel made tube 3.14", powder coated and thermo lacquered.
- Size adapted to soccer field dimensions.
- Depth from 1.64ft to 2.62ft
- Nets secured by shock absorbing elastic cables, which absorb wear and tear from leaning players and bouncing balls.

Protection Pole Padding

- Paddings are 3'5" high and 1.57" thick
- Covered with a PVC fireproof layer
- Customizable to complex colors.

Gate Access

- 3'5" wide 6'7" high.
- Equipped with a hydraulic door closer system which securely stops the door from slamming.

High resistance 28 mm MDF panels for indoor, or 30 mm thick panels sandwich filled with high-density polyurethane foam for outdoor.

Perimeter nettings in polyethylene and nylon, connected with the walls with a reinforced high-strength fabric bands.
